twiceBRIGHT

MSW2

Installation Instructions:

Wiring:

1. This LED luminaire must be connected to a constant voltage driver 12VDC in parallel.
   WARNING! Incorrect connection may damage the luminaire.
2. Note the dimension requirements before installation.
3. The light emitted from an LED luminaire is strong, avoid looking directly into the light source.
4. Connect the LED luminaire to the driver before turning on the power to the driver.
