

Product Dimensions:

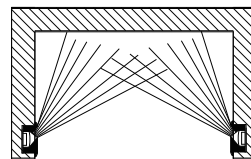

Product Mounting Options:

Down Light

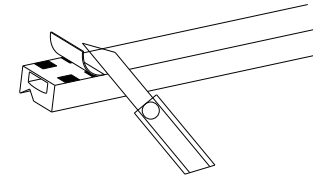

Up Light

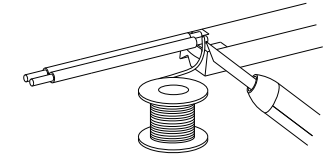

Vertical / Side Light

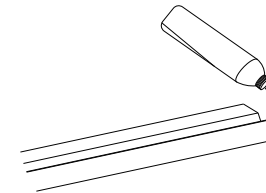

Installation Instructions:

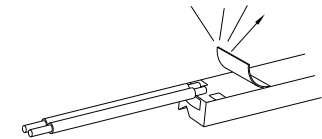

1. Remove the double-sided tape at the bottom of the tape (about 1/4" or 5-6mm), revealing the solder pads.

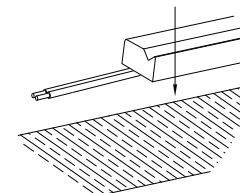

2. Solder lead wires to the solder pads.

3. Seal the tape at both ends of the neon strip with silicone to maintain IP54 rating.
Not required for IP20 applications.

4. Peel off the adhesive tape on the backside.

5. Stick directly to the mounting surface or pressure fit into milled dado or groove.
